## **Web Site Acknowledgement**

Scouts,

The Troop has been busy at putting together a web site where we can post various Troop related material for your use. Part of that site will include listing of Scouts and Scouters. Scouts will be listed by rank and patrol and by first name followed by the last name initial while Scouters will have their full names posted. We also plan on posting pictures collected from various scout related activities that you will be able to view. Private information such as personal e-mail, phone and address are not going to be added to the site.

The Council has requested that Troops secure permission from the Scouts and their parents prior to posting the name (as described above) and image on the web site. As such we request that the following be submitted by each participant.

Sincerely,  
Troop 13

The Adult Leaders and volunteer webmaster have my permission to post the Scout and or Scouters name as described above and images from Troop related activities on the Troop Website. I understand that this information will be publicly available to any visitor to the site.
